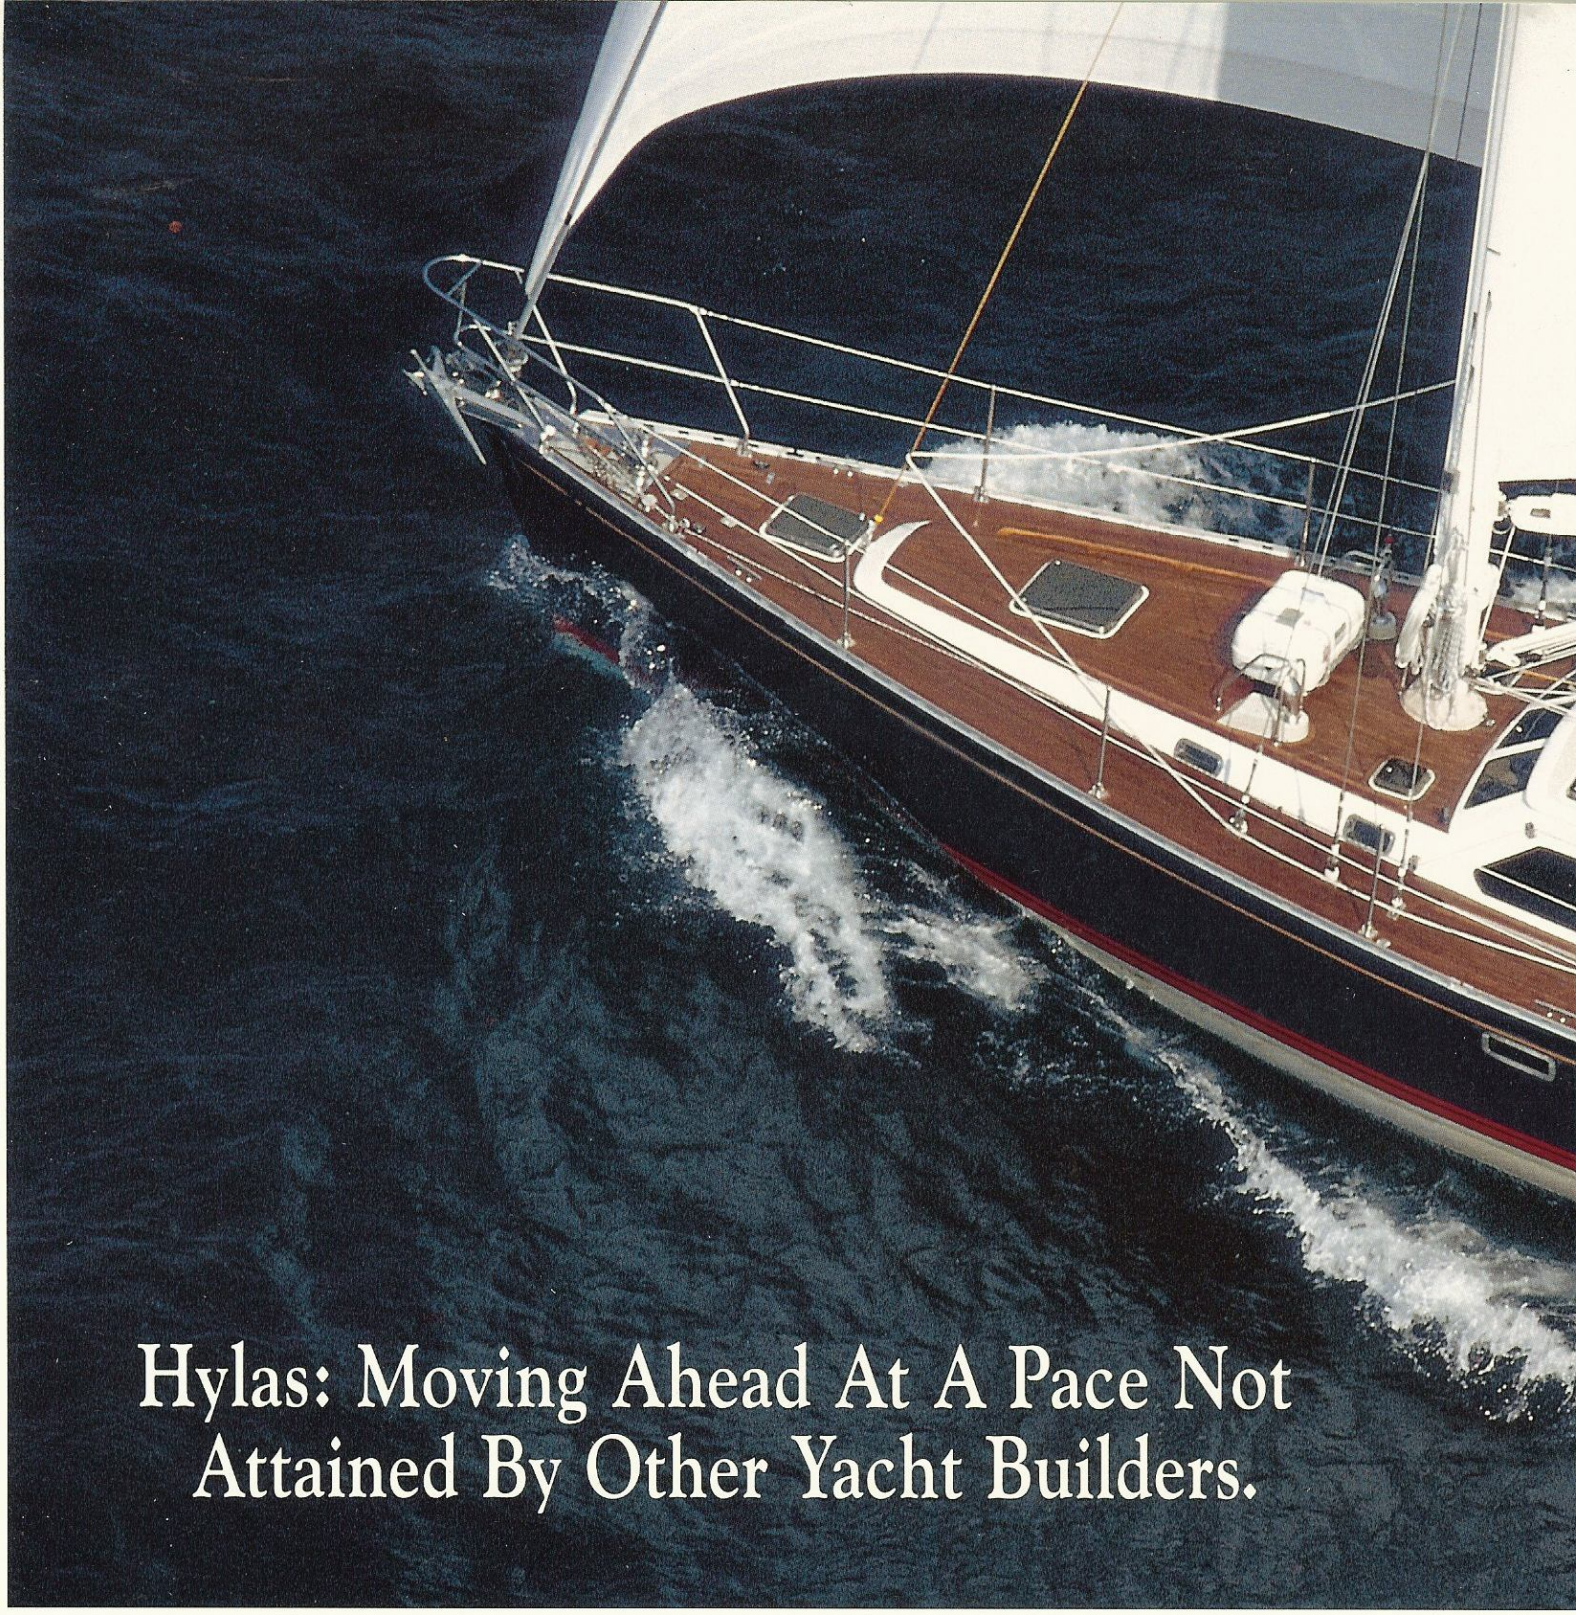
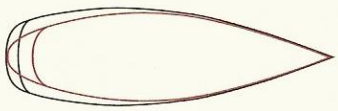
HYLAS 54 RAISED SALOON



Hylas: Moving Ahead At A Pace Not Attained By Other Yacht Builders.

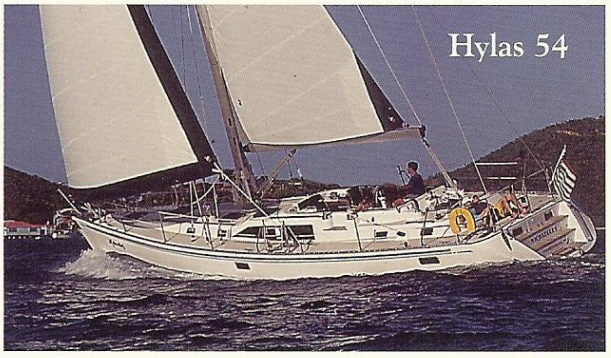
Like the popular Hylas 46, our Hylas 54 and new Hylas 54 Raised Saloon exhibit the latest in offshore hull design. Leading edge thinking inspired by todays offshore racing designs can be found thoughout German Frers' Hylas 54. A plumb bow, long waterline and a wide beam carried aft deliver power and speed in a seaway while her state of the art Twaron© aramid fiber construction offers bullet proof strength.



A Hylas offers beamier aft sections than most other yachts (red).

Features that make her a great blue water performer have an equally positive impact on living space. There is ample volume for such amenities as a luxurious owners stateroom, excessive storage and tankage located below the cabin sole, as well as excellent light and ventilation. Her well appointed interior is beautifully finished throughout in hand chosen teak.

Hylas 54 Raised Saloon
designed by German Frers



We invite your closer inspection of German Frers' Hylas 54. You will find her fast, comfortable and an excellent value by far. In short, the Hylas 54 offers the best of all worlds while taking you anywhere in the world you wish to go.
